Estimator

Overview

- Assemble estimate numbers by preparing bid packages and utilizing file share services to receive and upload blueprints, specifications, and any other bid documents.
- Review and interpret blueprints, specifications, and other documents provided by client to accurately prepare and estimate projects.
- Prepare estimate take offs of all shop labor, materials, buyout items, engineering, and other costs utilizing Strumis, Bluebeam, and other software for change orders on existing projects.
- Collaborate with internal and external team (such as GC, Owner, other trades, etc.) to ensure the job is estimated in our best effort for efficiency and cost effectiveness.
- Communicate estimate criteria to customers, project management, and our detailers.
- Perform estimate kick off meetings and provide breakouts, summaries, and turnover forms.
- Utilize excel to log updates in our bid log to create transparency on status.
- Print and distribute documents.
- Collect and register all technical documents such as drawings, blueprints, and specifications in Strumis (as required).

Henderson Fab is family owned and operated with over 30 years of steel erection experience.

In 2020 we brought fabrication and erection together to optimize our support from design to building.
